

ENTERPRISE FAX PORTAL

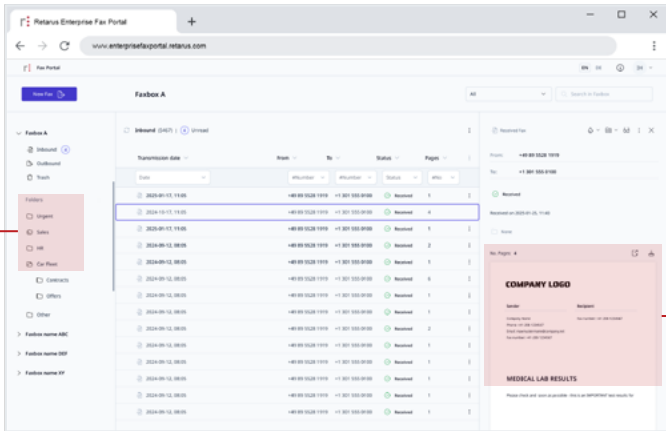

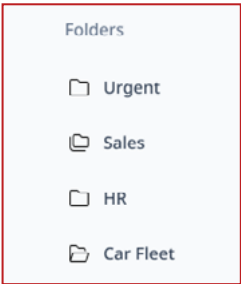

SIMPLE, COLLABORATIVE FAXING FOR ENTERPRISES

OUR SOLUTION

The Enterprise Fax Portal is a simple way to enable user-based faxing. Easily accessible via a browser, it taps into Retarus' high-end fax infrastructure to transmit documents. In addition to sending and receiving faxes, collaborative workflows can be managed in the portal with mechanisms such as shared folders and inboxes.

Shared folders and inboxes for collaborative fax processing

Download faxes, store them in your S3 archive, or view them directly in the portal

YOUR BENEFITS

Enable intuitive faxing using the Enterprise Fax Portal. Benefit from shared inboxes and other tools for collaborative processing of faxes. Ensure maximum reliability and data security with enterprise-level Cloud Fax. Without the need for additional hardware, software, or email access. Perfect for compliance, collaboration and disaster avoidance scenarios.
